WAVES OF LUXURY

MJM Interior Design elevates daily life through bespoke environments tailored to suit each client's unique needs, tastes, and lifestyles while maintaining a sense of sophistication

“My design philosophy is rooted in the essence of each home I design,” says Johnny Moallempour, CEO and lead designer of MJM Interior Design. “It’s about guiding my clients through an intentional design process where we create spaces that not only reflect their vision but elevate their lifestyle. I believe every home should be a harmonious blend of beauty and functionality, tailored to a client’s unique way of life.”

For Moallempour, what makes a great design is crafting spaces that resonate emotionally. A well-designed home should foster connection, evoke a sense of calm, and make life easier. It’s about creating a place where family and friends can gather, where memories are made, and where every

corner tells a story.

“I’ve been fortunate to design homes across the country, from modern coastal retreats to timeless estates, and I’ve always gravitated toward creating environments that feel refined yet effortless. We love working on projects of any scale, especially kitchens and bathrooms, approaching each with the same dedication and creative energy,” says Moallempour. “My style is about balance—elegance that doesn’t feel overdone, luxury that’s lived in.”

The firm delivers luxury by offering comprehensive turnkey services and managing every detail from concept to completion. The client-designer relationship is crucial, and Moallempour is fully invested in

understanding each client’s needs and working closely with trade partners to ensure every element is seamlessly integrated.

The Haleakala home—for a client of over 18 years—embodies the team’s excellence. The serene retreat reflects the family’s love of large gatherings and the island’s natural beauty. MJM Interior Design created a seamless indoor-outdoor living experience, fostering tranquility, and the custom details bring a personal touch to the space.

“As the lead designer on projects like Haleakala, collaboration is the heart of what I do,” says Moallempour. “I strive to design homes that feel effortlessly timeless, reflecting my client’s individuality while providing comfort for years to come.”
